**SCHUSTERS
OF TEXAS, INC.**

CELEBRATING 70 YEARS!!!

Here's just a little history about how Schusters of Texas, Inc., came to be. The Schuster family settled on the Circle X Ranch which has been in existence since 1890. In 1950 Wilford Schuster got into the floral business on a part-time basis and created the Circle X Brand of flowers. Fresh mistletoe, the first product, was gathered, boxed, and shipped during the Christmas season.

Wilford's main business was ranching, raising Angora goats and Hereford cattle. The windmill, an important part of any ranching or farming operation back then, became the focus of many pictures taken by Wilford and was adopted as the company's logo. As Wilford's three sons, Ron, Vance and Dale, joined the business, the name of the company was changed to Schusters of Texas, Inc., and we became a full-time family business.

Now 70 years later, Schusters' goal remains the same, to search the world over for "natural" floral products of the highest quality for our customers. Through our endeavors we have been able to keep up with the current trends, fashions and colors in order to provide many preserved and dried items, most of which mix eloquently in any design.

All of us at Schusters of Texas, Inc., appreciate your business and wish you a successful future of creativity with our new collection of flowers.
